Dear Child of God

Hello I hope this letter finds you in good health and good cheer with the hope of a brighter future. My name is Nancy and I'm starting a movement to bring God back to our nation. Do you believe our nation has pushed God out of too many places? this is a repeated cycle since before Jesus the nation's fall away from God and they suffer and have hardship then the nations come back to God and things are good. what if we could end this cycle That's my goal but I can't do it alone.

On June 1 2025 I will be holding my first faith fest. I've rentd a pavilion in a local park close to my community. I'm talking to churches in my area to bring them together. This will be the biggest church plotlock my town has ever seen. On that Sunday June 1st all are Invited. We will spend time in fellowship with a small sermon with games. With a showing kindness station mine will be washing people's feet you can choose yours. And for 15 minutes at 12:30 there will be a call to praise and prayer 🙏 for all of the people gathered at the Faith Fest to spend 15 minutes in Praise and prayer thanking God for always being with us praising God for all he will do and asking for healing and for our community, our nation, and God's world. Would you consider reaching out to the churches and believers in your community and having your own faith fest on June 1 2025?

This movement is not a one time thing. My goal Is to have this be a yearly event nationwide. We together as believers need to get this on the calendar first Sunday in June every year community Faith Fest Day. Every year we need to remember so that we do not forget so that we do not repeat the cycle. Can

you imagine the impact of all the believers in your community coming together in prayer? Let us not forget as children of God prayer is our greatest weapon. Can you see how this could affect your children's future and their children's future for generations to come.

But that's not where God wants this to end. We're going to do a second day of remembrance October 19th 2025. This one will be called American Discovery Trail day of prayer. Did you know there is a trail that goes across America from ocean to ocean that's the American Discovery Trail it goes right through the middle of our great nation. A hiking and biking type of trail that goes through many small towns. This is the path that was already laid out by God to fulfill this purpose. A hand to hand heart to heart human prayer chain from one ocean to the other. What greater way can we show our love to the god that loves us. It would take 9 million people to complete this prayer chain. Do you think that's too big? Well, it's not too big for our God. Have you ever heard of hands across America? That was a movement that happened back in 1986 celebrities got together. There were commercials for it, they raised money and everybody came together in a hand to hand human chain they sang God Bless America and we are the world. It was a great day in the history of America. Everyone was united and over five million people showed up. They mostly use the highways to complete their chain. They did not complete the human chain the whole way across the United States; they were close. But we have a much greater advantage the Internet with the way we can communicate so easily these days it would be a piece of cake. So every year on the 3rd Sunday of October I will be inviting churches and believers to go to the American Discovery Trail. load up the church buses make a day of it.

I asked that you just take a moment to picture in your mind 9 million Americans coming together on the same day, at the same time, in the same place and lifting praise and worship to our God to let him know we still love him and we have not forgotten what he does for us. I want this day to be on the calendar too American Discovery Trail day of prayer. 3rd Sunday in October EVERY year!

All of this cannot be done without the body of Christ coming together. And one thing history has shown us is when things get bad the body of Christ always comes together hurricane Helene and hurricane Milton our perfect example of how Americans come running when they know their people are hurting.

America is hurting. This is our opportunity as a nation to come together and tell the world we want God back in everything they have taken him out of. I believe this is our only answer. This is what we can do to build a brighter future for our children.

I would like to ask you to take some time to think on this, to pray about it, to share it with others and please let me know if you would like to join in this movement.

I've had this seed in my heart for over 8 years. down in the dark and it has grown some very deep roots. And never before has it felt like it's the right time. I believe in my heart the timing is perfect to spread this message to start this movement and to bring our nation back to God. God has always been with us. Let us stand loud and proud and declare our love for him. Let our voices be heard, it's time to make sure everyone knows we love God !!

Please help me sow the seed..Jesus is our rock without the people of the church and the believers of this nation coming together to remember that.This nation will not stand please help this movement grow. where can you have your 1st faith fest, be one of the first to join in this movement for God and bring our nation back to him. Let his healing Begin without him. We are truly lost. I thank you for your time.

God bless and say your prayers

Sincerely,

Nancy
